HOW TO PROTECT YOURSELF AND YOUR LOVED ONES

- ❑ Change the privacy settings on your social media to only allow people you know personally to view your postings.
- ❑ Monitor and manage your social media regularly to prevent unwanted followers or friends.
- ❑ Turn off your location settings to prevent tracking and/or stalking.
- ❑ Avoid posting compromising photos that can be used to coerce you.
- ❑ Do not engage in online dialog with anyone you don't know. That attractive 20-something who wants to be your friend is likely a 40 year old who is grooming you to become his/her next trafficking victim.

PLEASE BE CAREFUL

Thank you
